

Sample Markdown Document

This is a demonstration of the **MD to PDF Converter** with all its features.

Typography and Formatting

Here's some text with **bold**, *italic*, and ***bold italic*** formatting. You can also use ~~strikethrough~~ text.

GitHub-Style Alerts

NOTE

This is a note alert. It provides helpful background information.

TIP

This is a tip! Use these for best practices and suggestions.

IMPORTANT

This is important information that users should pay attention to.

WARNING

This is a warning about potential issues or breaking changes.

CAUTION

This indicates dangerous actions that could cause data loss.

Code Blocks

Here's some inline `code` formatting.

And here's a Python code block with syntax highlighting:

```
def fibonacci(n):  
    """Generate Fibonacci sequence"""  
  
    if n <= 1:  
        return n  
    return fibonacci(n-1) + fibonacci(n-2)  
  
  
# Calculate first 10 numbers  
for i in range(10):  
    print(f"F({i}) = {fibonacci(i)}")
```

JavaScript example:

```
const greet = (name) => {  
    console.log(`Hello, ${name}!`);  
};  
  
greet('World');
```

Tables

Feature	Status	Priority
Markdown parsing	✔ Complete	High
PDF generation	✔ Complete	High
Syntax highlighting	✔ Complete	Medium
GUI interface	✔ Complete	High
Drag & drop	✔ Complete	Medium

Lists

Unordered List

- First item
- Second item
- Nested item 1
- Nested item 2
- Third item

Ordered List

1. Step one
2. Step two
3. Step three

Task List

- ☒ Create converter engine
- ☒ Design beautiful CSS
- ☒ Build GUI application
- ☒ Package as .app
- ☐ Add more features

Links and Images

Visit [GitHub](#) for more information.

Horizontal Rule

Here's a horizontal rule:

Blockquote

This is a traditional blockquote. It can span multiple lines.
And multiple paragraphs.

Conclusion

This PDF demonstrates the beautiful styling and comprehensive markdown support of the **MD to PDF Converter!**
